## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1 – 20 are allowed.
2. The following is an examiner's statement of reasons for allowance:  
  
The prior arts teach sensing circuits for a memory cell, comprising:  
  
said memory cell having a drain capable of being connected to a first node through a selection circuit during a read operation involving said memory cell, the memory cell drawing a current during a read operation.  
  
However, the prior arts fail to teach the sensing circuit, further comprising:  
  
a first transistor being connected across the first node and a second node;  
  
a load being connected across the second node and a third node; and  
  
a voltage boosting circuit being coupled to a supply voltage, said supply boosting circuit supplying a voltage at said third node which is greater than the supply voltage.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
